### WESTIN EXCLUSIVE ISOLATOR BRACKET

Westin's exclusive Isolator Bracket supports the step bar past the truck cab, a feature that competitors do not offer. Without an Isolator Bracket, the step area that extends past the vehicle is left unsupported. Our unique design provides extra bed support without resulting in annoying creaking sounds.

Without an Isolator Bracket, the step area that extends past the vehicle is left unsupported. Our unique design provides extra bed support without resulting in annoying creaking sounds.

### WESTIN EXCLUSIVE ISOLATOR BRACKET

Westin's exclusive Isolator Bracket supports the step bar past the truck cab, a feature that competitors do not offer. Without an Isolator Bracket, the step area that extends past the vehicle is left unsupported. Our unique design provides extra bed support without resulting in annoying creaking sounds.

No one likes waiting on a slow winch. The Superwinch Talon Series combines fast line speed cable retrieval with outstanding pulling power and stout 2-stage planetary gears for steady and predictable operation. The innovative external disc brake design provides 100% load hold when running the brake hard. Stainless steel rollers stand up to weather and reduce drag and wire rope abrasion. Talon also features easy operation "pull and turn" clutch engagement. Talon has it all: speed, power and durable performance. (TALON 9.5SR shown)
